

Dear CeMBA/CeMPA students,

WUC 131/05 Learning Skills for University Studies course is one of the university compulsory courses offered to all undergraduate students. In a nutshell, this course will expose and assist you to adapt to the various learning modes adopted by Wawasan Open University, an open distance learning institution as opposed to a traditional universities delivery mode. Students will also be guided to identify their learning styles and to effectively manage their time and stress. Apart from that they will be taught on techniques to handle examination, preparing written reports and oral presentation.

As such we are pleased to inform that a CD copy of the "Learning Skills for University Studies" course will be extended to you **upon request from the ROs** to further enhance your learning in tertiary and open distance learning environment in WOU.

Thank you
