Note: Supervisors highlighted in red already have their project titles posted in the facebook page.

Facebook pages for projects and supervisors list:

BTEL: http://www.facebook.com/home.php?sk=group_238200129533176&ap=1

BTICT: http://www.facebook.com/home.php?sk=group_129056980464035

BTEC: <http://www.facebook.com/groups/tec309?ap=1>

BTCSN: <http://www.facebook.com/groups/215518175151205>

BTCIS: <http://www.facebook.com/groups/132150826815356>

Important Notices:

1). Each tutor can supervise up to 5 students. But we allow tutors to take more than 5 students if there is a shortage of supervisors available to supervise projects.

2). Please first get consent from the tutors to supervise you before you put their names down in your SST Project Forms. Supervisors reserve the right to reject any students who put their names down in the forms prior to getting their consent to supervise them.

3). Students must submit both the Project Enrolment Form and the SST Project Record Form together for your registrations to be valid. The RO's reserve the right to turn away any students who do not submit both forms together when registering for the project course. Both forms can be obtained from your respective RO's.

4). Students are free to choose any projects listed in the facebook pages, or propose their own project titles and look for a tutor to supervise them (any of those in the list). Students are highly encouraged to propose project titles related to their jobs and invite their immediate supervisors/bosses to supervise their projects.

5). The ROs staffs are responsible for enrolling students and make sure that they fill out the correct forms for the project courses. They will not help students choose supervisors and projects or show students where the facebook pages are. The ROs reserve the rights not to entertain students' requests which fall within those lines.

6).The CC's are not involve in the project supervisions (except for special circumstances), they will not help students to choose supervisors and/or project titles. The CC's merely facilitate the project courses. Once project titles and supervisors are decided by the students, they will proceed to start their projects and take initiative to arrange meetings with their respective supervisors in a regular basis, and submit their reports as per the due dates given by the Registry.

7). The respective CC's who are in charge of the project courses are listed below. However, CC's will only answer specific questions and they reserve the right not to entertain questions ask by students, if the answers can be found in the Project Course Guides. Students are expected to do their due diligent and demonstrate their independence throughout the project course, as this is one of the areas where the students will be assessed in.

The above are just some brief notices. For more details please refer to your respective Project Course Guides which can be obtained from the respective facebook pages listed above. A copy of this document is also available in the main page of the LMS, under “Project Course Information for ALL SST Students”.
